Course or Curriculum Development

As **Graduate Director** 2011-13 and 2015-22 played major roles in curriculum development for MPH and PhD programs in MIAEH.

Supported the transfer of a modified MPH program based on the CEPH accrediting body dropping the 15 credit core with a 12 credit set of 22 competencies.

MIEH 735: Food Toxicology

Role: Developed course from scratch.

MIEH 600: Foundation of Environmental Health

Role 1: Modified course structure to diversify students learning experience

Role 2: Provided lecture material including online recordings for PLH1 Online version of MIEH 600, *Restricted to students in MPH-PHPP or GC-PPH programs*. Fall and Spring teaching

Role 3: Converted summer in class version of MIEH 600 to hybrid

Role 4: Modified PLH1 online class for SPH-MPH student summer teaching

MIEH 720 Principles of Toxicology

Role: Modified a pre-developed course to give greater focus on toxicology for environmental health rather than clinical toxicology.

MIEH 771 Exposure Assessment

Role: Took over teaching of course Spring 2021, and updated all material related to slides used for teaching - including updated material, modification of major project and tutorials on data handling.

MIEH688A/ Seminar: Current Topics in Environmental and Occupational Health

MIEH688 Role: Heavily revamped course to ensure greater student involvement & understanding.
